

# FANNIN ROAD RECONSTRUCTION - PHASE III

## VEHICLE ROUTE PLAN

The City of Melissa would like to apologize for the construction work along Fannin Road, and thank the citizens of Melissa for their continued cooperation and patience as we make our improvements. This project is scheduled to be constructed in three major phases:

- PHASE I:** **Melissa Road to Cardinal Drive** (Does not include Cardinal Dr intersection) ~ SEPTEMBER 2009 to MARCH 2010
- PHASE II:** **Cardinal Drive Intersection** ~ MARCH 13, 2010— MARCH 21, 2010
- PHASE III:** **East of Cardinal Drive to State Highway 5** ~ MARCH 23, 2010 — MAY 2010  
*(The above dates are anticipated, and may change)*

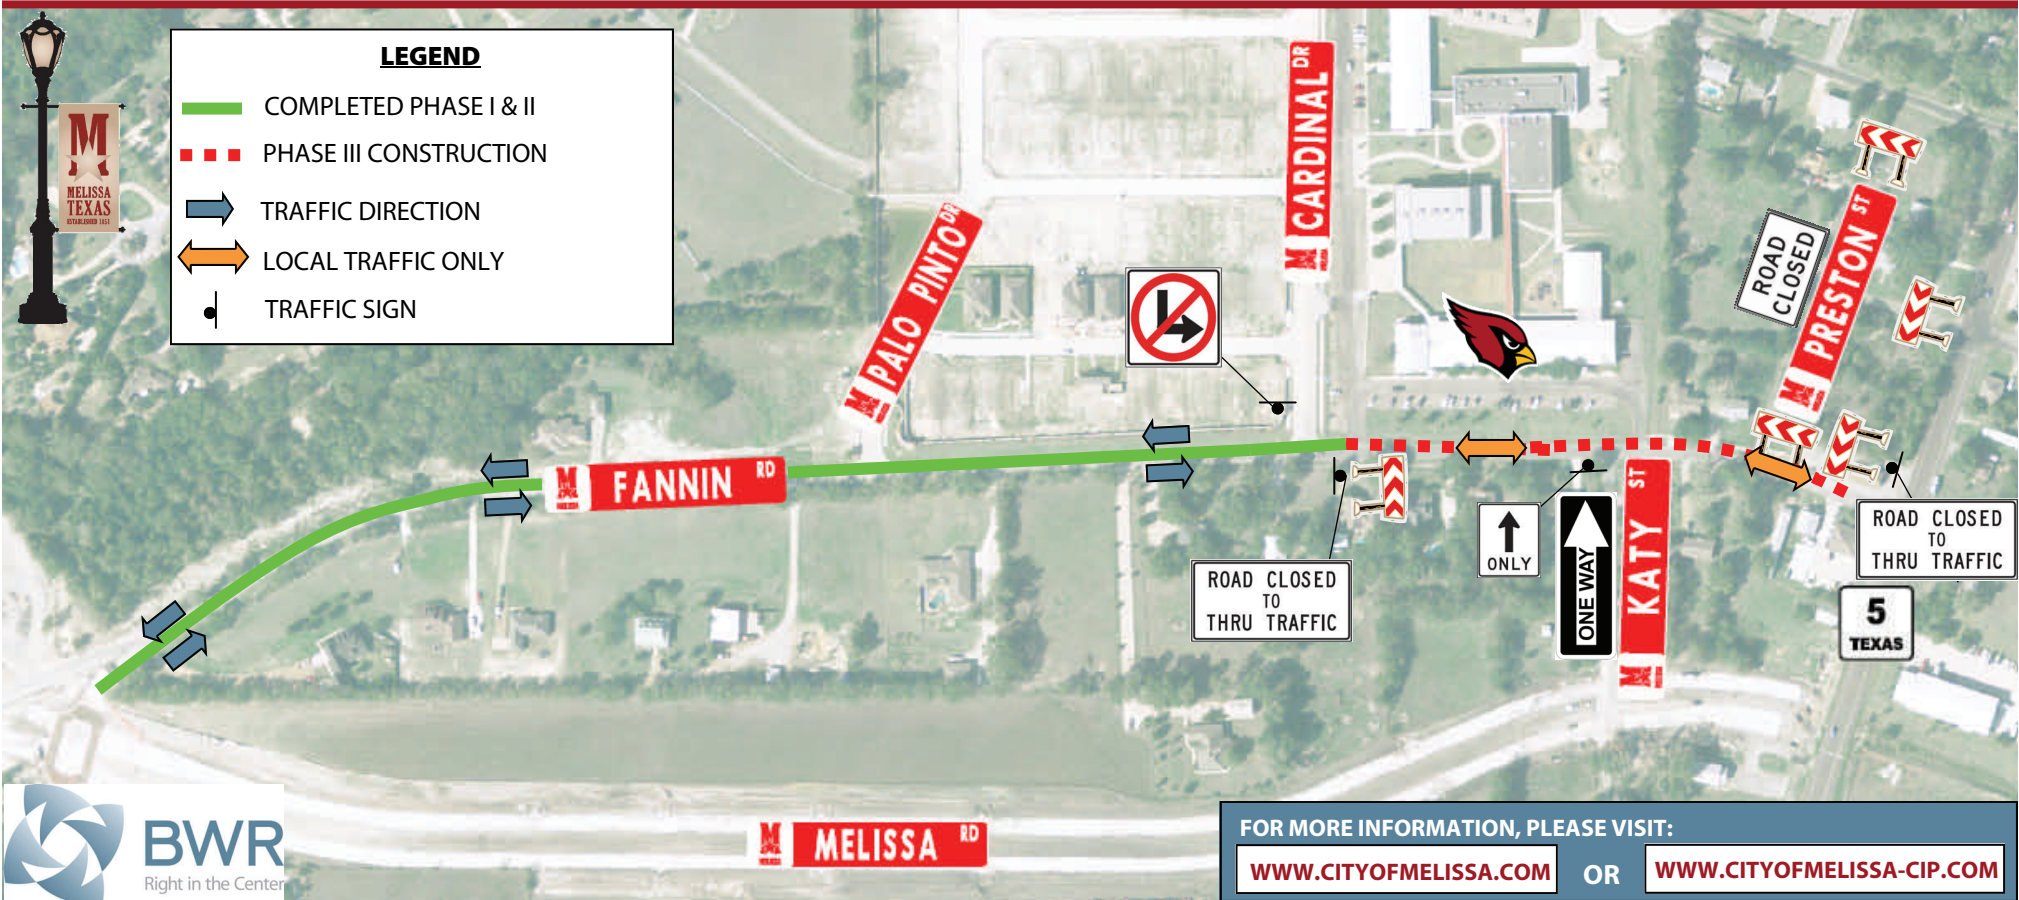

Beginning approximately March 23rd, the contractor will begin Phase III of the reconstruction project, which will close the eastern portion of Fannin Road from Cardinal Drive to Highway 5. Only residents who live along this segment of Fannin Road will have access to this area. All other traffic will have to utilize the new road segment from Melissa Road to Cardinal Drive, which will be open Monday, March 22 at 6:00 a.m. The project is currently scheduled to be completed in June of this year.

Prior to this occurring, the City is working hard to inform residents of the changing traffic patterns, and is also working with local police to make certain that safety is a priority during this project. Increased police patrols in this area will be utilized to ensure compliance with the speed limit and safe driving behaviors. Please be aware that the City has also implemented text based information distribution system, called **Nixle**, which is free for residents and will be utilized to publicized information such as this. If you have not already, please visit the City's website and sign up for this free system at [www.cityofmelissa.com](http://www.cityofmelissa.com). The link is on the homepage. If you have any questions concerns regarding the temporary detour or the planned construction activities, please do not hesitate to contact the City.
