SERVICE AGREEMENT

I understand the utility deposit must be paid at the time of application or service will not be established. It cannot be paid out or added to a bill.

I understand that if the water is not on at the time of purchase or rental, someone must be in the house before the water will be turned on in case of leaks, faucets left on, or any other problems that may occur. If no one is available, the meter will be unlocked and the customer will be responsible for turning the meter on.

I have received a copy of the minimum billing charges and the billing procedure has been explained to me. I understand that depending upon the date I request my service, my first bill may not reflect my average monthly usage and may include additional days of water usage or fewer days of usage.

I understand that if I vacate the property and leave an unpaid balance on my account the City of Melissa will apply my utility deposit to the account to satisfy the unpaid debt. If there is a credit after the balance has been paid a refund will be mailed to me (if we have a current or forwarding address). However, if there is still a remaining balance after the deposit has been applied; the account will be turned over to the Municipal Court for collection.

I understand that my payment is due on the 10th of each month and if payment is received after the 10th I will be charged a \$10.00 late fee.

I understand that Termination Notices are mailed on the 15th and disconnections will be done on or around the 25th of each month. If service is disconnected I understand that I will be charged a \$50.00 reconnect fee.

PLEASE BE ADVISED: If you have purchased a home with an automatic irrigation system (sprinkler system), these settings have been set by the builder or the previous owner. Please take the time to check the settings and adjust them to your own watering preference, as you will be responsible for all water charges accrued after you take possession of the property.
