[www.cityofmelissa.com](http://www.cityofmelissa.com)

March 21, 2017

To the Honorable Mayor and City Council, and  
Citizens of the City of Melissa, Texas

The City's Management Team is pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Melissa (the "City") for the fiscal year ending September 30, 2016. The City's Management Team assumes responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is accurate in all material respects. The data is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. To enable the reader to gain an understanding of the City's financial activities, all necessary disclosures have been included.

In accordance with the City's Charter, bond covenants and Chapter 103 of the Texas Local Government Code, the City is required to obtain an annual audit of the books of account, financial records, and transactions of all administrative departments of the City. The City's financial statements have been audited by Evans, Pingleton & Howard, PLLC, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2016, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unqualified opinion that the City's financial statements for the fiscal year ended September 30, 2016, are fairly presented in conformity with generally accepted accounting principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

The Comprehensive Annual Financial Report (CAFR) is prepared in accordance with GAAP in the United States of America established by the Government Accounting Standards Board. The CAFR is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the City's organizational chart, and a list of principal officials. The financial section includes the management's discussion and analysis (MD&A), the government-wide and fund financial statements, notes to basic financial statements, required supplemental information, other supplemental information, as well as the independent auditors' report on the basic financial statements. The statistical section includes selected financial and demographic information which is presented on a multi-year basis.

The MD&A is a narrative introduction, overview, and analysis to accompany the basic financial statements. The MD&A can be found immediately following the independent auditors' report. The letter of transmittal is designed to complement the MD&A and should be read in conjunction with the MD&A.

## **The Reporting Entity**

The City of Melissa was founded in 1851 and is a Home Rule City operating under a Council-Manager form of government adopted in the City's Home Rule Charter in November 2011. Policymaking and legislative authority are vested in the City Council, which consists of a Mayor and a six-member Council. The City Manager is appointed by the City Council and is responsible for carrying out policies and for the daily management of the City. Effective May 2012, Council Members will serve three-year staggered terms and are elected in an "at-large" system. The Mayor is elected to serve a three-year term and is also elected at-large.

The City of Melissa provides a full range of municipal services including police and fire protection, water and wastewater services, the construction and maintenance of streets, infrastructure and other related facilities, code enforcement, building inspection, parks, library, public improvements, planning and zoning, economic development, and general administrative services. Technical services such as engineering, legal, and solid waste/recycling are outsourced to the private sector.

The accompanying CAFR incorporates all funds of the City and includes all government activities, organizations and functions for which the City is financially accountable. The criteria used in determining activities to be reported within the City's basic financial statements are based upon and consistent with those set forth by the Governmental Accounting Standards Board.

Component units are legally separate organizations that a primary government must include as a part of its financial entity. The City has included financial statements for the Melissa Industrial and Economic Development Corporation (4A) and the Melissa Community and Economic Development Corporation (4B). The 4A and 4B Funds account for the local sales tax used to stimulate local economy, development, and redevelopment.

The annual budget serves as the foundation for the City's financial planning and control. The budget is prepared by Fund and department (e.g. police). Department heads may transfer resources within a department with the City Manager's approval. Any amendments and adjustments to the annual budget need approval from the governing Council.

## **The City of Melissa**

The City of Melissa is a fast growing North Texas community with a population of approximately 10,000. It is located seven miles northeast of McKinney just off State Highway 75, in north central Collin County. Melissa is in a dynamic growth area with a region encompassing nine counties and spanning one hundred miles with a population of over four million. Melissa's close proximity to Dallas and its suburbs offer easy access to all parts of the Metroplex.

From this community came many individuals and families who have been prominent in the business and professional life of Collin County. Some of the first settlers came from the old Highland community, which was located north of present day Melissa. It was here that C.H. Wysong settled as early as 1846. A Post Office was established and Isaac N. Foster became the first Postmaster on September 9, 1853. The location of the Post Office was located at Foster Crossing about 3 miles north of Melissa. The rich soils of the Blackland Prairie and the waters of the Elm Fork of the Trinity River attracted settlers to the area in the 1840s. In 1872, the Houston and Texas Central Railroads were built through the community, and the town of Melissa was laid out. Sources disagree as to the origin of the name of the town. Some say that Melissa was named for Melissa Quinlan, daughter of George A. Quinlan, an official of the Houston and Texas Central Railroad. Others say that it received its name for Melissa Huntington, daughter of C. P. Huntington, a prominent railroad executive.

In 1886 Melissa had a flourmill, two cotton gins that shipped 3,000 bales of cotton annually and several business houses. It became a stop on the Interurban (The Texas Electric Railway), linking Dallas and Denison in 1908. Due to this transportation network, it made Melissa a commercial and community center for area farmers. By 1914, Melissa's population had reached 400. Unlike many rural communities in Texas, Melissa had electric lights, a telephone exchange, and paved roads before 1920.

It also had five churches, a large school, and a number of businesses, including a bank. A tornado struck the town on April 13, 1921, killing thirteen people, injuring fifty-four, and demolishing many homes and businesses. Eight years later, on August 8, 1929, a fire destroyed many of the buildings that had been rebuilt after the tornado.

The Great Depression, the mechanization of farming, and job opportunities in the Dallas metropolitan area after World War II further slowed community growth. The population of Melissa declined from 500 in 1925 to 285 in 1949. In 1966 the population was 375. Melissa was incorporated in the early 1970s. In 1980 it had a population of 604 and nine businesses. Melissa encompasses approximately twenty-one square miles of rolling hills situated between the East fork of the Trinity River and Sister Grove Creek. The City of Melissa is located a short distance from two popular Texas lakes, Lake Lavon and Lake Texoma. Melissa has three intersecting highways, Highway 75, State Highway 121 and Highway 5 (McKinney Street) all of which provide easy access south to Dallas, Austin and San Antonio, and north to Oklahoma. Highway 75 also intersects with Interstate 635, the major business loop around Dallas. State Highway 121 runs northeast and southwest providing access south to DFW International Airport and south to the Dallas North Tollway.

### **Economic Condition & Outlook**

By most measures, Melissa is a city on the rise and continues to attract new residents at a brisk pace. The 2000 Census estimated the population to be 1,350, while the 2017 population estimate is approximately 10,000 residents. Even with the national economic slowdown, people continue to relocate to Melissa because it is a great place to live, attend quality schools, and raise a family, and the City has taken the initiative through comprehensive planning to define what it wants to look like in the face of the future growth.

The City continues to focus on the development of its infrastructure systems through a systematic and planned approach. The City felt that being prepared for the growth in the community will allow the City to grow at the pace and standards it wants. Beginning in 2006, the City adopted its first ever Comprehensive Plan to set the ground work for action planning in the future. In early 2007, staff began planning for the infrastructure that would be needed if the City grows at the pace the Comprehensive Plan anticipates. The City has since adopted Capital Improvement Programs (CIP's) for transportation, water/wastewater and parks/trails system. Both the Comprehensive Plan and CIP's were reviewed, updated and adopted in 2015 and look at the needs and priorities for the community for the next ten years.

The CIP models are built upon the projects that will be needed over the next ten year planning period if the assumed growth is consistent with the Comprehensive Plan projections. Projects are initiated by need or stress placed upon the system by growth. Examples of these triggers include the growth in the tax base or increased water customers. In addition to the tangible triggers, the City Council will also evaluate the subjective factors such as general economic conditions, leveraging of City funds with outside sources, and economic development opportunities. This data, both objective and subjective, are used by the City Council when initiating a project.

The models are also built with flexibility in the project schedule. If the triggers do not materialize in a given year, the proposed projects are delayed to a future year. If the triggers accelerate past the projections, projects may be moved forward in the plan. Lastly, the plan also allows for the City to be proactive with economic development opportunities by moving a project forward to capture an unforeseen opportunity.

The CIPs again are based upon the assumption of growth. If the growth does not materialize in the manner in which assumed, the projects are not constructed and delayed until appropriate. If the City does not plan aggressively, then the growth that will eventually occur will overwhelm the infrastructure systems. Services, residents, and businesses all suffer when infrastructure systems are at capacity. Appropriate planning is the key to being proactive.

## **Financial Planning & Fiscal Policies**

The City maintains several master plans to guide the City's long-term financial planning process. The following is a list of the plans utilized by the City and how they may impact the FY17 budget.

### **Comprehensive Plan:**

Overview: The City adopted its first Comprehensive Plan in 2006 with the help of an outside consulting firm. The document reviewed many building blocks for community development including utilities, thoroughfares, parks, facilities, housing, and many other issues. The action steps that were to be considered in the future were outlined in a specific chapter within the document. These action steps were designed to help the City address any existing issues identified through the study or to help the City proceed in the desired direction. The Comprehensive Plan was updated and adopted in 2015 and is available on the City's website at [www.cityofmelissa.com](http://www.cityofmelissa.com). Action Plans based on the implementation priorities are being drafted for consideration in the FY17 budget.

### **Capital Improvement Programs:**

Overview: The City adopted Capital Improvement Programs for water, wastewater, and transportation in 2007. The plans are for the ultimate growth of each of these systems and total in excess of \$100 million. Each plan is built upon the assumption of growth in the Melissa tax base/customers/community and established general timelines on what infrastructure needs to be in place if certain growth occurs. If the growth does not occur, the projects are not constructed until the need exists. There are no plans for additional project implementation in FY17 unless an economic development opportunity presents itself. Transportation planning, design, and construction activities were incorporated into the FY17 budget as a response to the growth in certain corridors within the City. Continued investment in the CIP's are likely in FY17 and will be evaluated at that time based on the growth and Council priorities.

### **Strategic Planning:**

Overview: The City Council reconfirmed their Vision, Mission, and Strategic Priorities for the next three years and ten year time period. These items are being compiled into a strategy map that will be used in the budget process to evaluate programs and services for funding.

Annually, the City Council reviews and considers adjustments, if necessary, during the budget process. Staff utilizes these policies to measure the proposed budget against and report any variances to the City Council.

## **Accounting System & Budgetary Control**

City management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse. Management must also ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework.

The City's accounting records for general governmental operations are maintained on a modified accrual basis, with revenues recognized when measurable and available, and expenditures recorded when the liability is incurred. Proprietary operations are maintained on a full accrual basis.

The objective of budgetary controls is to ensure compliance with legal provisions contained in the annual budget approved by the City Council. The budget is developed and controlled at the department level, although appropriations are set at the fund level.

### **Other Information**

#### **Certificate of Achievement:**

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to cities for its comprehensive annual financial report (CAFR) based on certain criteria. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards of preparation of state and local government financial reports. The City submitted and received this award for the CAFR for the past six years and will be submitting the CAFR for the fiscal year ended September 30, 2016.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

The City is submitting this CAFR for consideration for the Certificate of Achievement for Excellence in Financial Reporting. In addition, the City of Melissa has submitted and received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the fiscal year ended September 30, 2016. This is the seventh year that the City has received this prestigious award. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document was judged proficient in several categories including policy documentation, financial planning and organization. The budget for fiscal year 2017 has been submitted for the Distinguished Budget Award.

#### **Acknowledgments:**

The preparation of this report could not be accomplished without the efficient and dedicated services of the Administrative Department staff and the Finance Department staff. We would like to express our appreciation to all employees who assisted and contributed to its presentation. Acknowledgement is also given to the representatives of Evans, Pingleton, & Howard, PLLC for their assistance in producing the final product.

We would also like to thank the members of the City Council for their interest and support in planning and conducting the financial operations of the City in a responsible manner.

Respectfully submitted,

Jason Little, City Manager

Gail Dansby, Finance Director

## INDEPENDENT AUDITOR'S REPORT

Honorable Mayor  
and Members of the City Council  
**City of Melissa**  
Melissa, Texas 75454

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Melissa, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Melissa, Texas, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, general fund budgetary comparison, pension plan information and other postemployment benefits information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Melissa, Texas' basic financial statements. The introductory section, Schedule of Revenues, Expenses and Changes in Net Position – Budget and Actual – Water and Sewer Fund and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Revenues, Expenses and Changes in Net Position – Budget and Actual – Water and Sewer Fund is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Revenues, Expenses and Changes in Net Position – Budget and Actual – Water and Sewer Fund is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

*Evans, Pingleton and Howard, PLLC*

## Management's Discussion & Analysis

As management of the City of Melissa, we offer readers of the City of Melissa's financial statements this narrative overview and analysis of the financial activities of the City of Melissa for the fiscal year ended September 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-5 of this report. All amounts, unless otherwise indicated, are expressed in actual dollars.

### Financial Highlights

- The assets of the City of Melissa exceeded its liabilities at the close of the most recent fiscal year by \$17,360,987 (net position). Of this amount, \$11,250,230, (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position increased by \$668,861. This was due primarily to an increase in charges for services and tax revenue.
- As of the close of the current fiscal year, the City of Melissa's governmental funds reported combined ending fund balances of \$9,460,715, a decrease of \$3,433,666 in comparison with the prior year. Of the fund balance, \$1,661,672 is available for spending at the government's discretion (*unassigned fund balance*), \$6,963,698 is restricted for construction, court, and debt service, \$55,383 is nonspendable, and \$419,962 is assigned for information technology, city hall maintenance and capital projects.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$1,661,672 or 28 percent of total general fund expenditures.
- The City of Melissa's long-term debt decreased by \$1,308,608 during the current fiscal year.
- The City of Melissa's net capital assets increased by \$4,509,359 during the current fiscal year.

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Melissa's basic financial statements. The City of Melissa's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-Wide Financial Statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Melissa's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Melissa's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Melissa is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Melissa that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Melissa include general government, public safety, transportation, and recreation. The business-type activities of the City of Melissa include the water and sewer system, as well as sanitation collection and disposal.

The government-wide financial statements include not only the City of Melissa itself (known as the primary government), but also legally separate economic and community development corporations. Financial information for these *component units* are reported separately from the financial information presented for the primary government itself. The economic and community development corporations do not issue separate financial statements.

The government-wide financial statements can be found on pages 22-25 of this report.

**Fund Financial Statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Melissa, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Melissa can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Melissa maintains five governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and two capital projects funds, all of which are considered to be major funds. Data from the other governmental fund is combined into a single, aggregated presentation.

The City of Melissa adopts an annual appropriated budget for its general fund. Budgetary comparison statements have been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 26-35 of this report.

**Proprietary Funds.** The City of Melissa maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Melissa uses an enterprise fund to account for its Water, Sewer and Sanitation operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water, Sewer and Sanitation operations, which is considered to be a major fund of the City of Melissa.

The basic proprietary fund financial statements can be found on pages 36-39 of this report.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 40-73 of this report.

**Other Information.** The individual fund schedule provides a budgetary comparison schedule for the enterprise fund. This schedule can be found on pages 76-77 of this report.

## Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Melissa, assets exceed liabilities by \$17,360,987 at the close of the most recent fiscal year.

A portion of the City of Melissa's net position (32 percent) reflects its investment in capital assets (e.g. land, building, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding. The City of Melissa uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Melissa's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Melissa's net position (3 percent) represents resources that are subject to external restrictions on how it may be used. The board has assigned \$419,962 of net position for future cost of informational technology and city hall maintenance. The remaining balance of *unrestricted net position* \$10,830,268 may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Melissa is able to report positive balances in all three categories of net position for the government as a whole.

The following key elements influenced the changes in net position from the prior year:

#### Governmental Activities:

- Charges for Services increased by \$354,546 from the previous year due to increases in sales tax revenue, permit revenue, and platting and development revenue.
- Property Taxes increased \$640,809 from the previous year due to increases in existing property values and new construction.

#### Business-Type Activities

Business-Type activities decreased the City of Melissa's net position by \$201,134.

- Revenues increased by \$1,003,248 (19%) due to water sales and growth of meters.
- Expenses increased by \$1,868,583 (44%) due to increases of purchased water and treatment of wastewater resulting from growth of meters.

## Financial Analysis of the Government's Funds

As noted earlier, the City of Melissa uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the City of Melissa's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Melissa's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available at the end of the fiscal year.

As the end of the current fiscal year, the City of Melissa's governmental funds reported combined ending fund balance of \$9,460,715, a decrease of \$3,433,666 from the prior year. The increase is primarily due to unspent bond proceeds. Of the current combined ending fund balance, \$1,661,672 is unassigned and \$6,963,698 is restricted.

The general fund is the operating fund of the City of Melissa. At the end of the current fiscal year, unassigned fund balance of the general fund was \$1,661,672. Total unassigned fund balance represents 28% of total general fund expenditures.

The debt service fund has a total fund balance of \$378,847, all of which is restricted for payment of debt services. The increase in fund balance of \$75,000 is due to assessment and collection of penalties for delinquent property taxes.

The Transportation CPF has a total fund balance of \$1,420,785, all of which is restricted for street construction. The decrease in fund balance of \$1,056,028 represents increased construction expenses.

The Park CPF has a total fund balance of \$5,039,809, all of which is restricted for capital outlay. The decrease in fund balance of \$3,034,869 represents increased construction expenses.

**Proprietary Funds.** The City of Melissa's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net position of the Enterprise Fund at the end of the year amounted to \$6,058,375. The total decrease in net position of the Enterprise Fund was \$201,134. The factors concerning the finances of this fund have already been addressed in the discussion of the City of Melissa's business type activities.

## General Fund Budgetary Highlights

During the year, revenues exceeded budgetary estimates while budgetary estimates exceeded expenditures. The budget had called for a \$231,785 increase in unassigned general fund balance. The increase in unassigned general fund balance was actually \$616,933, an increase of \$385,148 from budget projections. The increase in unassigned general fund balance has allowed the development of a few accounts for replacement and repair, as well as special/capital projects funds.

- In total, actual general fund revenues were \$92,109 greater than budget.
- Overall, actual general fund expenditures were \$31,940 less than budget.

## Capital Asset & Debt Administration

**Capital Assets.** The City of Melissa's investment in capital assets for its governmental and business-type activities as of September 30, 2016, amounts to \$51,951,854 (net of accumulated depreciation). This investment in capital assets includes land, buildings and systems, and equipment.

Major capital asset events during the current fiscal year included the following:

- Construction in progress of \$4,368,823.
- Fire and Police vehicles/equipment purchased \$439,033, including \$317,973 for new digital radios.
- Various construction on water and sewer lines, of \$1,300,515, were the major additions to the business-type activities.

Additional information on the City of Melissa's capital assets can be found in note 3.C. on pages 50-51 of this report.

**Long-Term Debt.** At the end of the current fiscal year, the City of Melissa had bonded debt outstanding of \$45,613,250. This entire amount comprises debt backed by the full faith and credit of the City.

During the current fiscal year, the City of Melissa's long-term debt decreased as a result of principal payments on outstanding debt.

The City of Melissa has a bond rating of "A+" from Standard & Poor's and A1 from Moody's Investors Service.

Additional information on the City of Melissa's long-term debt can be found in note 3.G. on pages 53-68 of this report.

### **Economic Factors and Next Year's Budgets & Rates**

The budget document for Fiscal Year (FY) 2016 was submitted to the Government Finance Officers Association of America (GFOA) Distinguished Budget Award committee and was awarded its seventh Distinguished Budget Award. Comments submitted by the reviewers on items for improvement were addressed and the document has been resubmitted for the FY 2017 award. The goal of the Distinguished Budget Award program is to evaluate the budget document in the context of it serving as a policy guide, operations guide, financial plan and communication document. These focus areas are intended to ensure the budget provides expanded information to anyone who reads the document, and at the same time, provides for a meaningful feedback tool to the departments and organization on how they are doing in the budget process as well.

The property tax revenue within the FY17 budget is based on an ad valorum tax rate of \$.61. The City has maintained the same tax rate for eight consecutive years. In addition, a conservative collection rate of 99% of the tax rate is assumed, although the City historically collects in excess of 100% which includes delinquent taxes from previous years.

The 2016 assessed property value of the City of Melissa is over \$700 million, an overall increase of \$121 million from the preceding year. Assessed property values have risen \$400 million since 2007. The top ten taxpayers for 2016 make up only 5.03% of the \$700 million taxable appraised value compared to 15.15% in 2005.

Sales Tax is the second largest source of revenue to the City's General Fund, making up \$850,000 or 14% of total revenues.

The City Council remains committed to conduct an annual water rate study to ensure the rate structure pays for the debt and maintenance and operation of the water and wastewater systems. This planning effort is imperative in a community where investments in water and wastewater systems are critical to sustain the growth it is experiencing. The City manages its water purchase contracts with the North Texas Municipal Water District (NTMWD) through limited well water and the contracted surface water. The NTMWD delivers water to the City and treats its wastewater as well. Current wholesale rates were increased by NTMWD, and these increases are typically passed on to the customer to cover these delivery charges. No increase in water and a 7.4% in volumetric sewer rates were approved for the FY17 year. The rates will be reviewed again next year.

Capital Improvement Planning projects and expenditures are now captured in the Transportation Construction Fund and the Utility Construction Fund respectfully. The ten-year planning program for the City's Water and Wastewater Capital Improvement Program will anticipate, plan, and construct the necessary improvements for the water and wastewater system.

All these factors were considered in preparing the City of Melissa's budget for the 2017 fiscal year.

Continuing its conservative budget practice of keeping revenue forecast at least as low as the prior year and then spending any increases the next fiscal year, the City of Melissa is committed to increasing the contingency or unreserved general fund balance. The designated unreserved fund balance ended at 93 days at 9/30/16. This exceeds the Council adopted financial policy of at least 90 days of operating expenses for the City's General Fund. The 2017 fiscal year budget provides for an approximate increase of \$150,000 in the contingency or unreserved General Fund balance.

### **Request for Information**

This financial report is designed to provide a general overview of the City of Melissa's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the City Manager, 3411 Barker Avenue, Melissa, Texas 75454.

**CITY OF MELISSA**  
 Reconciliation of Balance Sheet of Governmental Funds  
 to Statement of Net Position  
 September 30, 2016

**Total Fund Balances - Governmental Funds** \$ 9,460,715

Capital assets used in governmental activities are not financial resources, and therefore, are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$32,354,056 and the accumulated depreciation was \$(6,444,780). In addition, long-term liabilities, including bonds payable of \$(27,575,000), and capital leases of \$(428,907) are not due and payable in the current period, and therefore, are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.

(2,094,631)

Current year capital outlays of \$4,926,419 and long-term debt principal payments of \$993,595 are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase net position.

5,920,014

Current year lease proceeds of \$(341,099) provide current financial resources in the fund financial statements, but should be shown as an increase in long-term debt in the government-wide financial statements. The net effect of the new debt is a decrease to net position.

(341,099)

Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements, interest expenditures are reported when due. The net effect of including accrued interest is to decrease net position.

(137,574)

The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.

(1,318,290)

Included in the non-current liabilities is the recognition of the City's net pension liability required by GASB 68 in the amount of \$(379,694), a deferred resource inflow in the amount of \$(10,338), and a deferred resource outflow in the amount of \$284,066. The net effect of the GASB 68 adjustment is a decrease in net position.

(105,966)

Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing \$35,501 of deferred revenue as revenue, recognizing the liability associated with compensated absences of \$(97,545), and recognizing the disposal of capital assets \$(18,513). The net effect of these reclassifications is to decrease net position.

(80,557)

**Net Position of Governmental Activities**

\$ 11,302,612

**CITY OF MELISSA**  
 Reconciliation of Statement of Revenues, Expenditures,  
 and Changes in Fund Balances of Governmental Funds  
 to Statement of Activities  
 September 30, 2016

<b>Net Change in Fund Balances - Governmental Funds</b>	\$ (3,433,666)
Current year capital outlays of \$4,926,419 and long-term debt principal payments of \$993,595 are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase net position.	5,920,014
Current year lease proceeds of \$341,099 provide current financial resources in the fund financial statements, but the should be shown as an increase in long-term debt in the government-wide financial statements. The net effect of the new debt is to decrease net position.	(341,099)
Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements, interest expenditures are reported when due. The net effect of including accrued interest is to decrease net position.	122,103
The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(1,318,290)
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 12/31/15 caused the change in the ending net position to increase in the amount of \$88,700. Contributions made before the measurement date but after the previous measurement date were reversed from deferred resource outflows and recorded as a current year expense. This caused a decrease in the change in net position totaling \$(69,332). The City's reported TMRS net pension expense had to be recorded. The net pension expense decreased the change in net position by \$(76,111). The net effect of the GASB 68 adjustment is to decrease net position.	(56,743)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing \$7,290 of deferred revenue as revenue, recognizing the liability associated with compensated absences of \$(11,101), and recognizing the disposal of capital assets of \$(18,513). The net effect of these reclassifications is to decrease net position.	<u>(22,324)</u>
<b>Net Change in Governmental Activities Financial Position</b>	<u>\$ 869,995</u>

The notes to the financial statements are an integral part of this statement.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the City of Melissa, Texas, have been prepared in conformity with accounting principles generally accepted (GAAP) in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

**A. Reporting Entity**

The government is a municipal corporation governed by an elected five-member council and mayor. As required by accounting principles generally accepted in the United States of America, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government. Each discretely presented component unit has a September 30 year end.

**Discretely Presented Component Units**

The Melissa Economic Development Corporation (MEDC) serves all citizens of the City and is governed by a board appointed by the City's elected council. The City can impose its will on the MEDC and affect the day-to-day operations of the MEDC by removing appointed board members at will. The scope of public service of the MEDC benefits the City and its citizens by developing economic resources and is operated primarily within the geographic boundaries of the City. The MEDC is presented as a governmental fund type.

The Melissa Community Development Corporation (MCDC) serves all citizens of the City and is governed by a board appointed by the City's elected council. The City can impose its will on the MCDC and affect the day-to-day operations of the MCDC by removing appointed board members at will. The scope of public service of the MCDC benefits the City and its citizens by developing recreational resources and is operated primarily within the geographic boundaries of the City. The MCDC is presented as a governmental fund type.

The MEDC and MCDC do not prepare separate financial statements; however, the presentations in the basic financial statements are a complete presentation.

**B. Government – Wide & Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**B. Government – Wide & Fund Financial Statements (continued)**

The statement of activities demonstrates the degree, to which the direct expenses, of a given function or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting & Financial Statement Presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**C. Measurement Focus, Basis of Accounting & Financial Statement Presentation**  
(continued)

The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *capital projects funds* account for the acquisition of capital assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.

The government reports the following major proprietary fund:

The *Enterprise fund* is used to account for those operations that are financed and operated in a manner similar to private business or where the council has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The government's enterprise fund is for water, sewer and sanitation operations.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. The enterprise fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it the government's policy to use restricted resources first, then unrestricted resources as they are needed.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. Assets, Liabilities & Net Position or Equity**

**1. Deposits & Investments**

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity date within three months of the date acquired by the government. Other short-term investments are included in investments. Investments are stated at cost.

**2. Short-Term Interfund Receivables/Payables**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans are classified as "interfund receivables/payables."

**3. Restricted Assets**

Certain resources are classified as restricted assets on the balance sheet because their use is limited.

**4. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities' columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Asset	Years
Buildings	40
System Infrastructure	40
Equipment	5-10
Vehicles	5

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. Assets, Liabilities & Net Position or Equity (continued)**

**5. Compensated Absences**

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**6. Long-Term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**7. Fund Equity**

**Fund Balance Classification:** The governmental fund financial statements present fund balance classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable**: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- **Restricted**: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

**CITY OF MELISSA**  
 Notes to the Financial Statements  
 September 30, 2016

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. Assets, Liabilities & Net Position or Equity (continued)**

**7. Fund Equity (continued)**

- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council. These amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The City did not have any committed resources as of September 30, 2016.
- Assigned: This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by an official to whom the City Council delegates this authority.
- Unassigned: This classification includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

As of September 30, 2016, fund balances are composed of the following:

	General Fund	Debt Service Fund	Capital Project Funds	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:					
Prepaid Items	\$ 55,383	-	-	-	55,383
Restricted:					
Construction	-	-	6,460,594	-	6,460,594
Court	76,417	-	-	-	76,417
Debt Service	-	378,847	-	47,840	426,687
Committed:					-
Assigned:					
Information Technology	114,962	-	-	-	114,962
City Hall Maintenance	55,000	-	-	-	55,000
Capital Projects	250,000	-	-	-	250,000
Unassigned:					
Designated	360,000	-	-	-	360,000
Undesignated	1,661,672	-	-	-	1,661,672
Total Fund Balances	<u>\$ 2,573,434</u>	<u>378,847</u>	<u>6,460,594</u>	<u>47,840</u>	<u>9,460,715</u>

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(2) STEWARDSHIP, COMPLIANCE & ACCOUNTABILITY**

**A. Budgetary Information**

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are legally adopted for the general fund and water and sewer fund. All annual appropriations lapse at fiscal year end.

The City follows these procedures in establishing the budgetary data reflected in the financial statements.

1. Prior to September 1, the City Council prepares a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. The budget is legally enacted by the City Council through passage of an ordinance prior to the beginning of the fiscal year to which it applies, which can be amended by the Council.
4. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter total expenditures of any fund must be approved by the City Council.
5. Formal budgetary integration, using the modified accrual basis, is employed as a management control device during the year for the General Fund. One supplemental appropriation was made during the fiscal year.
6. The budget approved for the Water and Sewer Fund follows similar approval procedures but departs from generally accepted accounting principles by not including depreciation and amortization in the approved budget. These amounts are reported at year end as part of the "actual" column. One supplemental appropriation was made during the fiscal year.
7. The Debt Service and Capital Projects Funds do not have formal budgets since all are controlled by contractual obligations approved at inception or as part of the General Fund on an annual basis. The non-major governmental fund is not budgeted.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. At year end, encumbrances are canceled or re-appropriated as part of the following year budget.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(2) STEWARDSHIP, COMPLIANCE & ACCOUNTABILITY (continued)**

**B. Budget/GAAP Reconciliation**

The following schedule reconciles the amounts on the Statement of Revenues, Expenses and Changes in Fund Net Position - Budget and Actual - Water and Sewer Fund to the amounts on the Statement of Revenues, Expenses and Changes in Fund Net Position - Proprietary Funds:

	Water & Sewer Fund
Net Position (Budget)	<u>\$ 6,693,511</u>
Depreciation	<u>(635,136)</u>
Net Position (GAAP)	<u><u>\$ 6,058,375</u></u>

**(3) DETAILED NOTES ON ALL FUNDS**

**A. Deposits & Investments**

The City may invest in obligations of the U.S. Treasury or the State of Texas, certain U.S. agencies, certificates of deposit, money market savings accounts, certain municipal securities, repurchase agreements, common trust funds and other investments specifically allowed by the Public Funds Investment Act of 1987 (Article 842a-2 Vernon's Civil Statutes).

The MEDC and MCDC may invest in obligations of the U.S. Treasury or the State of Texas, certain U.S. Agencies, certificates of deposit, money market savings accounts, certain municipal securities, repurchase agreements, common trust funds and other investments specifically allowed by the Public Funds Investment Act of 1987 (Article 842a-2 Vernon's Civil Statutes).

At September 30, 2016, the City's carrying amount of deposits was \$18,732,512 and the bank balance was \$17,195,111. Of the bank balance, \$750,000 was covered by federal depository insurance and \$16,445,111 was covered by collateral held by the pledging financial institution's trust department or agent in the government's name.

The carrying amount of deposits for the MEDC, a discretely presented component unit, was \$932,106 and the bank balance was \$932,106. Of the bank balance, \$250,000 was covered by FDIC insurance and the remainder was covered by collateral held by the pledging institution's trust department or agent in the government's name.

The carrying amount of deposits for the MCDC, a discretely presented component unit, was \$523,045 and the bank balance was \$523,045. Of the bank balance, \$250,000 was covered by federal depository insurance and the remainder of the bank balance was covered by collateral held by the pledging financial institution's trust department or agent in the government's name.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(3) DETAILED NOTES ON ALL FUNDS (continued)**

**A. Deposits & Investments (continued)**

In compliance with the Public Funds Investment Act, the City has adopted a deposit and investment policy. That policy addresses the following risks:

- a. Custodial Credit Risk – Deposits: In the case of deposits this is the risk that, in the event of a bank failure, the City's deposits may not be returned to it. The City's policy regarding types of deposits allowed and collateral requirements is: the Depository may be a state bank authorized and regulated under Texas law; a national bank, savings and loan association, or savings bank authorized and regulated by federal law; or a savings and loan association or savings bank organized under Texas law; but shall not be any bank the deposits of which are not insured by the Federal Deposit Insurance Corporation (FDIC) and pledged securities. The City is not exposed to custodial credit risk for its deposits, as all are covered by depository insurance and pledged securities.
- b. Custodial Credit Risk – Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investments are with TexStar Investment Pool ("TexStar"). The pool is a public funds investment pool created to provide a safe environment for the placement of local government funds in authorized short-term investments. Local investment pools operate in a manner consistent with the Security and Exchange Commission's Rule 2a7 of the Investment Company Act of 1940. The reported value of the pool is the same as the fair value of the pool shares. Administration of TexStar is performed by a Board of Directors, which is an administrative agency created under the Interlocal Act. The City is not exposed to custodial credit risk for its investments.
- c. Credit Risk – This is the risk that an issuer of an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. It is the City's policy to limit its investments to those investments rated at least AAm. The credit quality rating for TexStar at year end was Aaa by Moody's Investor Service.
- d. Interest Rate Risk – This is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for the City's investment in external investment pools is less than 60 days.
- e. Foreign Currency Risk – This is the risk that exchange rates will adversely affect the fair value of an investment. The City is not exposed to foreign currency risk.
- f. Concentration of Credit Risk – This is the risk of loss attributed to the magnitude of the City's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. It is the City's policy to not allow for a concentration of credit risk. Investments issued by the U. S. Government and investments in investment pools are excluded from the 5 percent disclosure requirement. The City is not exposed to concentration of credit risk.

**CITY OF MELISSA**  
 Notes to the Financial Statements  
 September 30, 2016

**(3) DETAILED NOTES ON ALL FUNDS (continued)**

**B. Receivables**

Receivables at September 30, 2016 consisted of the following:

	General Fund	Enterprise Fund	Total
<b>Receivables:</b>			
Property Tax	\$ 35,501	-	35,501
Sales Tax	94,937	-	94,937
Other	843	502,208	503,051
Utility Bills	-	67,942	67,942
<b>Net Receivables</b>	<b><u>\$ 131,281</u></b>	<b><u>570,150</u></b>	<b><u>701,431</u></b>

No allowance for uncollectible accounts has been made.

Property taxes are based on the appraised values provided by the Collin County Central Appraisal District. Taxes are levied by October 1 of each year. Unpaid property taxes become delinquent on February 1 of the following year. Penalty is calculated after February 1 up to the date collected by the government at the rate of 6% for the first month and increased 1% per month up to a total of 12%. Interest is calculated after February 1 at the rate of 1% per month up to the date collected by the government. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the City. The City's current policy is to write-off uncollectible personal property taxes after four years.

Property taxes are due in full on October 1 and there are no discounts granted. The assessed value as of January 1, 2015, upon which the 2015/2016 levy was based, was approximately \$578,726,007. The tax rate for fiscal year 2015/2016 was \$0.61 per \$100 of assessed valuation.

At September 30, 2016, the MEDC and MCDC each had sales tax receivable of \$47,469. No allowance for uncollectibles has been made.

Water & Sewer	\$ 635,136
Total Depreciation Expense - Business-Type Activities	<u><u>\$ 635,136</u></u>

**D. Construction Commitments**

At September 30, 2016 the City had the following projects under construction. A summary of the status of these projects and the related binding contracts with contractors is as follows:

Project Name	Schedule Completion Date	Contract Amount	Cost Incurred Through 09/30/16
<b>Business-Type Activities:</b>			
Stiff Creek Sewer	9/30/2017	\$ 486,610	165,802
Davis Road Sewer	9/30/2017	307,211	215,661
<b>Governmental Activities:</b>			
Park Improvements	9/30/2017	10,537,844	3,738,879
Road Improvements	9/30/2017	4,641,601	1,061,088

**CITY OF MELISSA**  
 Notes to the Financial Statements  
 September 30, 2016

**(3) DETAILED NOTES ON ALL FUNDS (continued)**

**E. Interfund Receivables, Payables & Transfers:**

Interfund balances at September 30, 2016 are as follows:

Due To/From Other Funds

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Debt Service Fund	General Fund	\$ 12,083
Proprietary Fund	General Fund	18,373
General Fund	Transportation Construction	\$ 409

The outstanding balances between funds result mainly from the time lag between the dates that (1) reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

	Transfers In:					Total
	General Fund	Tax Inc. Fin. Zone	Debt Ser. Fund	Capital Projects	Proprietary Fund	
<b>Transfers Out:</b>						
General Fund	\$ -	-	123,243	264,800	-	388,043
Tax Increment Fin. Zone	-	-	740,026	-	-	740,026
Capital Projects	-	-	-	-	4,000	4,000
Proprietary Fund	147,000	280,000	-	-	-	427,000
<b>Total</b>	<b>\$ 147,000</b>	<b>280,000</b>	<b>863,269</b>	<b>264,800</b>	<b>4,000</b>	<b>1,559,069</b>

Purpose of Transfers

The transfer from the general fund to the tax increment financing zone was to provide working capital. The transfer from the proprietary fund to the general fund was to pay its share of administrative costs. The transfer from the debt service fund to the transportation construction fund was to correct deposit of bond issue proceeds.

**F. Capital Leases**

The City has entered into certain capital lease agreements for equipment and vehicles. As of September 30, 2016, the equipment and vehicles leased under capital leases had a carrying value of \$656,411 which is included in the governmental activities and \$56,540 which is included in the business-type activities on the Statement of Net Position. Capital lease expenditures for 2016 were \$165,797, of which \$28,134 represented interest. Effective interest rates range from 3.25% to 7.20%.

**CITY OF MELISSA**  
 Notes to the Financial Statements  
 September 30, 2016

**(3) DETAILED NOTES ON ALL FUNDS (continued)**

**F. Capital Leases (continued)**

Pursuant to the terms of the capital lease agreements, the City will be required to make future minimum payments as follows:

Year Ending <u>September 30,</u>	Governmental Activities	Business-Type Activities
2017	\$ 159,738	27,473
2018	142,588	27,472
2019	101,085	5,501
2020	92,096	-
2021	92,364	-
Thereafter	<u>160,758</u>	-
Future Minimum Lease Payments	748,629	60,446
Less: Amount Representing Interest	<u>(92,218)</u>	<u>(3,906)</u>
Present Value of Future Minimum Lease Payments	<u><u>\$ 656,411</u></u>	<u><u>56,540</u></u>

**G. Long-Term Debt**

Long-term liability activity, for government activities for the year ended September 30, 2016, was as follows:

	Beginning Balance	Additions	Retirements	Ending Balance	Due Within One Year
Governmental Activities:					
Capital Leases	\$ 428,907	341,099	(113,595)	656,411	134,509
Bonds Payable	27,575,000	-	(880,000)	26,695,000	1,190,000
Compensated Absences	86,444	99,154	(88,053)	97,545	-
Totals	<u>\$ 28,090,351</u>	<u>440,253</u>	<u>(1,081,648)</u>	<u>27,448,956</u>	<u>1,324,509</u>

The capital leases, note payable and compensated absences will be repaid by the general fund. Bonds will be liquidated by the debt service fund.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(4) OTHER INFORMATION**

**A. Risk Management**

The government is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The government is a participant in the Texas Municipal League Workers' Compensation Joint Insurance Fund (WC Fund) and the Texas Municipal League Joint Self-Insurance Fund (Property-Liability Fund), a public entity risk pool operated by the Texas Municipal League Board for the benefit of individual governmental units located with Texas. The government pays an annual premium to the Funds for its workers' compensation and property and liability insurance coverage. The WC Fund and Property-Liability Fund are considered self-sustaining risk pools that provide coverage for its members for up to \$2,000,000 per insured event. There was no significant reduction in insurance coverage from the previous year. Settled claims for risks have not exceeded insurance coverage for the past three years.

**(5) RETIREMENT SYSTEM**

**Plan Description**

The City of Melissa participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas.

TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits, and actuarial methods and assumptions used by the System. This report may be obtained at [www.tmrs.com](http://www.tmrs.com).

All eligible employees of the city are required to participate in TMRS.

**Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Member may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

**CITY OF MELISSA**  
Notes to the Financial Statements  
September 30, 2016

**(5) RETIREMENT SYSTEM (continued)**

Plan Description (continued)

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the city were as follows:

	<u>Plan Year 2016</u>	<u>Plan Year 2015</u>
Employee Deposit Rate	7%	7%
Matching Ratio (city to employee)	2 to 1	2 to 1
Years Required for Vesting	5	5
Service Retirement Eligibility (expressed as age/years of service)	60/5, 0/20	60/5, 0/20
Updated Service Credit	0%, Transfers	0%
Annuity Increase (to retirees)	0% of CPI	0% of CPI

Employees Covered by Benefit Terms

At the December 31, 2015 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	10
Inactive Employees Entitled to but Not Yet Receiving Benefits	22
Active Employees	49
	<hr/>
	81

Contributions

Under the state law governing TMRS, the contribution rate for each government is determined annually by the actuary, using the Projected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that government. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

The government contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the government make contributions monthly. Since the government needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect.

Employees for the City of Melissa were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 5.71% and 6.35% in calendar years 2015 and 2016 respectively. The City's contributions to TMRS for the year ended September 30, 2016, were \$141,014, and were equal to the required contributions.

**(5) RETIREMENT SYSTEM (continued)**

Net Pension Liability

The city's Net Pension Liability (NPL) was measured as of December 31, 2015, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

	Increase/(Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balance at 12/31/2014	\$ 2,340,021	\$ 2,146,878	\$ 193,143
Changes for the Year:			
Service Cost	273,760	-	273,760
Interest	171,825	-	171,825
Change in benefit terms	-	-	-
Diff between expected/actual experience	(14,746)	-	(14,746)
Changes of assumptions	89,627	-	89,627
Contributions - Employer	-	114,584	(114,584)
Contributions - Employee	-	144,519	(144,519)
Net Investment Income	-	3,169	(3,169)
Benefit payments, including refunds of employee contributions	(44,530)	(44,530)	-
Administrative expenses	-	(1,930)	1,930
Other charges	-	(95)	95
Net changes	<u>475,936</u>	<u>215,717</u>	<u>260,219</u>
Balance at 12/31/2015	<u>\$ 2,815,957</u>	<u>\$ 2,362,595</u>	<u>\$ 453,362</u>

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

City's Net Pension Liability	1% Decrease (5.75%)	Discount Rate (6.75%)	1% Increase (7.75%)
	<u>\$ 904,256</u>	<u>\$ 453,362</u>	<u>\$ 85,887</u>

**CITY OF MELISSA**  
 Notes to the Financial Statements  
 September 30, 2016

**(5) RETIREMENT SYSTEM (continued)**

Pension Expense and Deferred Outflows and Inflows of Resources

For the year ended September 30, 2016, the City recognized pension expense of \$205,463. At September 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected & Actual Economic Experience (net of current year amortization)	\$ 26,212	12,344
Changes in Actuarial Assumptions	75,030	-
Difference Between Projected & Actual Investment Earnings (net of current year amortization)	132,029	-
Contributions Subsequent to the Measurement Date	105,909	-
<b>Total</b>	<b>\$ 339,180</b>	<b>12,344</b>

\$105,909 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31	
2016	\$ 52,653
2017	52,653
2018	52,652
2019	47,871
2020	13,387
Thereafter	\$ 1,711

**(6) EVALUATION OF SUBSEQUENT EVENTS**

The City has evaluated subsequent events through March 21, 2017, the date which the financial statements were available to be issued.

**(7) RESTATEMENT OF NET POSITION**

To comply with GASB 68, which became effective during the prior fiscal year, an adjustment was made to true up the calculated deferred outflows, deferred inflows, and net pension liability for both the Governmental and Business-Type activities. The net position, as of September 30, 2016, has been restated to reflect these changes.

	Governmental Activities	Business-Type Activities	Total
Net Position - As Originally Reported	\$ 10,758,342	5,975,179	16,733,521
GASB 68 Changes:			
Deferred Outflows	67,587	6,335	73,922
Deferred Inflows	143,750	48,493	192,243
Net Pension Liability	(177,032)	(31,386)	(208,418)
Decrease in Infrastructure	(360,030)	-	(360,030)
Decrease in A/P	-	121,812	121,812
Change in GTUA Assets	-	139,076	139,076
Net Position - Restated	<b>\$ 10,432,617</b>	<b>6,259,509</b>	<b>16,692,126</b>

## NOTES TO SCHEDULE OF CONTRIBUTIONS

**Valuation Date:**

## Methods & Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	28 years
Asset Valuation Method	10 year smoothed market; 15% soft corridor
Inflation	2.50%
Salary Increases	3.50% to 10.50% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table based on rates that are specific to the City's plan of benefits. Last updated for the 2015 valuation pursuant to an experience study of the period 2010-2014.
Mortality	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB.
<b>Other Information:</b>	There were no benefit changes during the year.

<u>Governmental Unit</u>	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable<sup>1</sup></u>	<u>Estimated Share of Overlapping Debt</u>
Debt Repaid with Property Taxes			
Melissa I.S.D.	\$ 88,783	86.26%	\$ 76,584
Collin County	395,590	0.50%	1,978
Collin County College District	19,366	0.50%	<u>97</u>
Total Overlapping Debt			78,659
City of Melissa Direct Debt			<u>26,695</u>
Total Direct and Overlapping Debt			<u><u>\$ 105,354</u></u>

Sources: Assessed value data used to estimate applicable percentages provided by the Collin County Central Appraisal District. Debt outstanding data provided by the governmental units.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Melissa. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

<sup>1</sup>The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the governmental unit's taxable assessed value that is within the governmental's boundaries and dividing it by the governmental unit's total taxable assessed value.
