Developer hereby certifies that all critical components listed below associated with the referenced project were constructed in accordance with all applicable City of Melissa Subdivision Ordinance requirements and specifications. The City of Melissa will issue building permits contingent upon the completion of a final inspection and all remaining punch list items identified by the City of Melissa.

Certificates of Occupancy for any and all of the facilities/houses permitted in the project will be withheld until final acceptance of public improvements is approved by The City of Melissa.

All responsibility for the adequacy of the design remains with the design engineer.
